

## OVER AND UNDER PRINT POLICY

Due to the gang run method that Infinitedesigns uses, we cannot guarantee that every order will be the exact number of items which was ordered. Infinitedesigns can only guarantee that it will come within plus or minus 10% of the number of items ordered. Although rare, in the event of an under run, we will either refund or give you Store Credit for the number of pieces we were "short" if over 10% of the order quantity.
